The award winning amenity center designed by DSGN Architects

In 2010, the Estate of Byron Nelson selected Wilbow Corporation to develop a portion of the ranch into Byron's vision of a vibrant community of homes where young, growing families could live and thrive. The community has four distinctive neighborhoods all under strict architectural covenants. Winding streets follow the rugged contours and native plantings create a unique and memorable setting for executive homes. The community incorporates an on-site daycare center and Wayne A. Cox Elementary School, as well as an award-winning amenity center and acres of open space.

Highland Homes has been building in Fairway Ranch since the community opened in Fall 2013. Highland has continually adapted their homes to changing homebuyer preferences with new plans and features. Highland was approached by HGTV to build a Dream Home in Texas and Fairway Ranch selected as the best location.

The last phase of homes in Fairway Ranch is currently under construction and sell-out is expected in 2020. Wilbow invites you to visit Roanoke and see for yourself why HGTV and Highland selected Fairway Ranch for the 2019 Dream Home.
